

Getting started with the MCC 3100 for Nokia

The Nortel Mobile Communication Client 3100 (MCC 3100) for Nokia provides enterprise collaboration functionality to a supported mobile device using a data (Internet) connection over the cellular and WiFi network. MCC 3100 for Nokia allows real-time communication with the Nortel Mobile Communication Gateway 3100 (MCG 3100) and Nortel Communication Server. The term Communication Server means all communication servers that MC 3100 supports (see the MC 3100 Product Bulletin). For more information on MCC 3100 for Nokia, see *Nortel Mobile Communication Client 3100 for Nokia User Guide* (NN42030-102).

Important Notice:

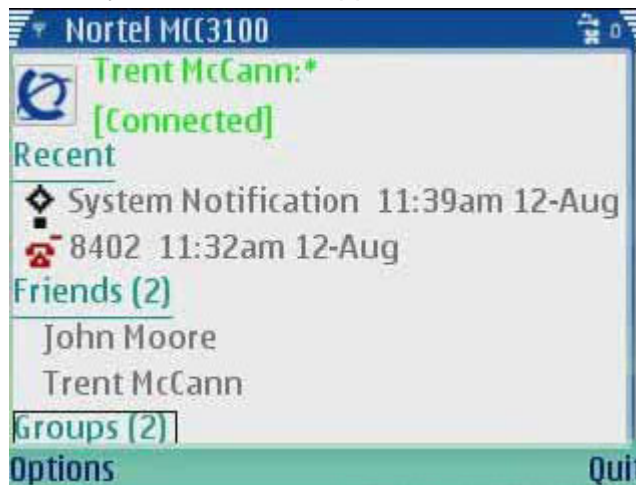

Users are advised to select and use headsets which are designed to reduce excessive sound pressure levels or acoustic shocks. Users should check that their headsets do meet their respective National or International Acoustic and Safety requirements.

Starting the MCC 3100

Starting the MCC 3100 application:

1. Press **Menu**.
2. Select the **Nortel MCC 3100** application icon.
The MCC 3100 for Nokia application starts.

The main MCC 3100 screen appears and you can use the application.

Note: On some Nokia devices, the application icon is available under **Menu, Installation**.
